

Beverage CLC/10 Crushproof

Application:

The hose is suitable for transporting beer and beverages with alcohol up to 50%.

Construction:

Beverage CLC/10 Crushproof is corrugated and made of bromobutyl on the inside and corrugated neoprene on the outside. The hose is built around a plastic spiral for extra great flexibility. The hose is white and smooth on the inside and red with canvas structure on the outside.

- Designed for tasteless and odorless transport of media
- Ozone and weather-resistant

Temperature:

The temperature ranges from -40°C to +120°C.

The hose can be sterilized at +130°C for a maximum of 30 minutes.

Safety factor:

Safety factor: ≥ 3 times working pressure.

Pressure:
